

CALLER—Dear old Jack, I just read in the paper about your being sun-struck, and rushed right over. I'm awfully glad you're as well as you are. You're lucky. Now, old man, I don't want to work the old "I told you so" gag on you, but the way to prevent sunstroke is to keep the bowels clean and cool, and the blood from being over-heated, by taking a CASCARET Candy Cathartic at bed-time. They work while you sleep, and keep you safe and comfortable all day.

All Through the Hot Summer Months

We have been ordering and receiving School Supplies and it is no wonder we are anxious for "scho 1 to open." Our shelves and counters fairly groan for relief and nothing but a first class "school opening" will relieve them.

We are THE APPOINTED STATE AGENTS to distribute the STATE Text Books and will have them by the THOUSAND.

As to supplies Goldsmith's Composition Books, Lead Pencils and Pens are so well known that we can say very little more about them.

Our School Lists will be out next week and any child is welcome to one. They show just what books will be used in each grade.

Books for Lewis Academy, Fairmount, Friends', Pro-Cathedral, Mt. Carmel as well as the public schools and commercial and business colleges.

Mrs. J. P. Mahan and sister, Frances Murphy left Thursday evening for Minneapolis to join J. P. Mahan and N. J. Murphy, who have been spending the summer among the northern lakes.

H. D. Parks of the Cherry-Tilden Live Stock Commission company of Kansas City was in the City yesterday, visiting friends. He is on his way to St. Domingo where he will make a short visit.

SOME EVIDENCE OF WICHITA PROSPERITY

One Business Section of City Makes Good Showing.

IN TONNAGE AND REVENUE

Few of the Things Revealing a City's Destiny.

Because the farmers are refusing to sell their hogs and there was no business at the stock yards yesterday the conclusion must be drawn that business is lagging in that section of the city. The sound of hammer and saw is heard on every hand and the great business interests of that business center are making an astounding growth.

The report for the business at the joint railroad station at the stock yards and the packing houses have been returned to the various railroads for the month of August but that for July shows a remarkable increase over the same month last year. The tonnage for this last July was 21,750,000 pounds while that for the same month last year was 20,445,000, showing an increase in tonnage this last July over a year ago of 1,305,000 pounds. This tonnage yielded the railroads a revenue last month of \$36,048.28 against \$32,536.25 for the same month last year, showing an increased revenue for last July of \$3,512.03.

It is the opinion of the railroad people that the business at the joint station for the month of August of this year will show a greater gain over the same month last year than was shown in the July comparison and they expect that the revenue for entire year will be about a half million dollars. That is a very remarkable showing. One might suppose that the great increase of business this year in the stock yards and the packing house district was unprecedented and that nothing like it can be expected next year. The railroad people, however, expect a larger increase next year than is shown this year. There is certainly grounds for this belief when one fully understands what is going on at the great business center in the north part of the city.

Some of the reasons for expecting a still larger increase of business next year are given: The old packing house did not get down to active business until a part of this year was past and now they are making calculations for killing cattle on a larger scale. The Cudahy packing house is being enlarged to nearly double its present capacity for handling hogs. The great Stevens-Scott elevator is nearing completion. It has risen the past week above the trees on Chisholm creek and now the roof being put on the working part of the elevator is more than ninety feet above the foundation. The railroad companies are putting the switches to it and in less than a month it will be running. The Watson mills have very recently been increased in capacity to the extent of five hundred barrels of flour per day. The new elevator people are going to build another elevator west of the present magnificent structure and put in it machinery with capacity to grind and chop 2,000 bushels of corn a day. These are some of the reasons for expecting a greater increase of business next year and they will satisfy the average business man in this city that there are good grounds for the faith of the railroad people.

Fred Chain is the joint railroad agent with his office on Twenty-first street. He has four clerks and they are all busy. The new Prisco switch engine No. 3618 has been assigned to duty on the joint switches and five men assigned to duty with it are the hardest working men in the city. This makes ten men that the railroads have to do the immense business in that section of the city and already the business men up there are calling for another switch engine so that their live stock, grain, packing house and mill products can be promptly moved.

The immense business transacted at the joint railroad station on Twenty-first street comes from a very small portion of Wichita. This is not boom talk inflated with wind but the statement of facts that any one who has the time and inclination may verify. There are a very few of the facts that might be stated to show that Wichita is making mighty strides toward greater commercial supremacy. People talk about solving the freight rate problem for Wichita and amid it all this city by the loyalty, energy and industry of its citizens is marching with majestic steps to the ideal commercial, manufacturing and monetary center that was years ago revealed to the prophetic vision of the far seeing business men at the Junction of the two Arkansas rivers.

If You Want Pure Water
You must specify Crystal Water. Order it from The Holland Water Co. and see that it bears the yellow label otherwise you may get a substitute of questionable purity.

To avoid this over-taxed and worn out condition drink The Holland Water Co.'s distilled and aerated product, named Crystal Water.

IN GOING TO FIRE.

Members of Wichita Fire Department Watching Outcome of Suit.

The firemen of this city are watching with a great deal of interest the status and outcome of a damage suit in Newton brought about by the injuring of a woman while the department was going to a fire. Not long ago, as the department was going to a fire, they had to cross the Santa Fe tracks and an engine was standing almost in the center of the road. There was more room around the left end of the engine and the driver of the house wagon took that side, which, according to law, is the wrong side of the street. As the wagon dashed around the engine they crashed into a buggy containing a man and woman. The horse

If Headachy

No heart depressant or narcotic, but a brain clearer and stomach settler; it brings the liver and bowels into healthy action. Sold by American Physicians and Druggists. See and Buy at Druggists or by mail from THE TARRANT CO., 21 Jay Street, New York

A Cure For Rose Cold Hay Fever and ASTHMA

A prominent New York lawyer in an unqualified testimonial says: "HIMROD'S ASTHMA CURE cured me when all other remedies failed. Physicians' prescriptions did not even relieve. For years I have been a sufferer of Rose Cold with all of its annoying symptoms, such as constant sneezing and itching watery eyes. Himrod's Asthma Cure is ONE WEEK totally eradicated a Rose Cold of years standing. No words can express my appreciation of its effectiveness."

The late (Dr.) Oliver Wendell Holmes in his book "One Hundred Days in Europe" says: "I have used Himrod's Asthma Cure and it is the best. It never failed."

Send for a generous free sample today and try it. It will not disappoint you.

HIMROD MFG CO., 14-16 Vesey St., New York. For sale by all Druggists.

was killed, the buggy smashed up and the occupants more or less injured, the woman seriously.

Now the occupants of that buggy are threatening the city with a damage suit. Fire departments usually keep to the right hand side of the street, but it is an unwritten law that they have the entire street in making a run to a fire and that people must get out of their way whichever side of the street the wagons may be using.

TWO FIRES YESTERDAY.

Gasoline Fire in Drug Store, and M. W. Dorsey's Barn Burned.

The fire department was called out twice yesterday, once in the afternoon to P. P. Ahern's drug store and again in the evening to M. W. Dorsey's barn on South Market street. At 3:30 yesterday afternoon one of the clerks at Ahern's drug store was filling a cigar lighter with gasoline, when a spark from the lighter set fire to the shelf bottle of gasoline which was sitting on the counter. The clerk's clothing caught fire from the blaze, and he became excited, throwing the bottle to the floor and scattering the fire. The fire on the clothing was put out easily, but the gasoline blaze could not be extinguished. Water was thrown on it but this served only to spread the flames. The fire department was called out. The fire department was called out on the burning gasoline and the fire was put out. As the gasoline did not burn deeply into the wood but little damage was done by the fire.

At a little after 8 o'clock in the evening fire was discovered in the barn belonging to M. W. Dorsey at 1102 South Market street. An alarm was turned in but the barn burned rapidly and was entirely destroyed when the company arrived and extinguished the flames. No one was at home when the fire started excepting Mr. Dorsey's father, who is sick in bed, and he knew nothing of it. Mr. Dorsey left the barn with his horse and buggy about forty minutes before the fire was discovered, and as there were no electric wires or lamps, and little hay around the barn, he is confident that some one set fire to it. It might have been an incendiary, but he believes that it was set by small boys in their play. The barn was a new one, a story and a half high, and was burned to the ground. It was fully covered by insurance.

Called Lime a Poison.

In a public lecture in Denver, Colo., Dr. De Manco declared that lime, the element which makes water "hard," was a positive poison. He asserted that it was responsible for more sickness, misery and death, than tea, coffee and alcohol combined. He cited as proof that no matter what class of sickness was under consideration, the free use of good distilled water would, in nine cases out of ten, bring speedy relief. He said that every city should erect a plant and distribute distilled water free to its citizens.

WILL VISIT WICHITA.

Ringling Bros.' Show Is Coming This Way.

Ringling Brothers' circus, one million dollar free street parade, unrivaled menagerie, superb, spectacular production of Jerusalem and the Crusades, thrilling arena performance, remarkable trained animal display, stupendous horse fair, and soul-stirring Roman hippodrome races will exhibit in Wichita Tuesday, October 12.

In order to successfully depict the bewildering magnitude of the World's Greatest Shows, a few plain statements of facts, direct from the Ringling Brothers, are appended:

Ringling Brothers have this year 85 double length railroad cars, equal in carrying capacity of 170 ordinary cars. Ringling Brothers have 40 elephants, embracing every kind and variety and including "Baby Boo," the only baby elephant every bred, born and successfully reared in America.

Ringling Brothers have 108 cages, dens and lairs of wild animals—the animal life of the world—including a pair of giraffes, the sole survivors of their kind and also the only rhinoceros in captivity. No other show in all the world had ever as many as 40 cages.

Ringling Brothers employ 1,200 people, a veritable traveling city. Ringling Brothers have 215 circus artists and performers from every continent and country. No other show in the world ever had 200 performers.

Ringling Brothers have 60 horses of the most perfect specimens obtainable. No other show ever had over 25 horses at any time. Ringling Brothers have three miles of parade glories—a perfect sunburst of dazzling splendor.

Ringling Brothers present this season, on a scale of regal magnificence, the sublime and instructive spectacle of Jerusalem and the Crusades in which 1,200 characters take part. No other show ever made an attempt to display one-tenth of its grandeur. Ringling Brothers introduce for the first time in the history of any circus, a marvelous 8-stop pipe organ, rivaling in sweetness of tone and expression and volume of power organs of a similar nature to be found only in the famous old cathedrals of Europe.

KINGMAN EXPECTS BIG CROWD.

Everything Is Ready for Cattleman's Convention.

James Conley, Jr., returned from Kingman yesterday, and says that great preparations are being made there for the cattleman's convention, to be held on Tuesday, Wednesday and Thursday of this week. Mr. Conley says that the grounds have been put in excellent condition for the event, and the management of the convention is expecting to entertain thirty thousand people. The program for the three days is made up of cattle-roping contests, races and many other attractions.

\$5,000 RAISED FOR SANITARIUM

At Newton Camp Meeting Last Week.

DR. KELLOGG TO LECTURE

In Toler Auditorium Monday Evening.

At the Newton camp meeting last week five thousand dollars was raised toward the fund for building the Wichita branch of the Battle Creek Sanitarium in this city. Dr. J. H. Kellogg, president of the Battle Creek Sanitarium and Dr. Paulson, superintendent of the Chicago branch, will be here Monday to inspect the present branch now open on North Market street and confer with the members of the Chamber of Commerce about erecting a sanitarium in this city. Dr. Kellogg will give a lecture Monday night along sanitarium lines in the Toler Auditorium and it is expected that before he leaves Wichita he will have made complete arrangements to begin work at an early date in this city on the largest sanitarium in the southwest.

Dr. Kellogg will reach Wichita early Monday morning and will confer with the board of directors of the Chamber of Commerce members of that organization regarding the establishment of the sanitarium here. The building and grounds with the full equipment are to cost at least twenty thousand dollars. Wichita is to furnish the ground for the structure. The Kansas Sanitarium association organized here a year ago will raise the balance of the fund necessary to build and equip the building. Five thousand dollars of this amount was raised at a meeting outside of Wichita and the association which is composed of men and women of influence and wealth throughout the state are very anxious to get the business closed up and work started on the structure.

The branch of the association has been established here a year and it has enjoyed a good business from people for hundreds of miles around but the limited accommodations prevent many from coming to this city. Those who are in favor of the Battle Creek Sanitarium idea are watching very closely the movements of the people every day regarding the sanitarium. Owing to the superior railroad accommodations the sanitarium people want the branch here. Topeka has made a good offer to the association to come to that town but the association was organized to build a sanitarium in Wichita and they are determined to do so if the people of this city will only give them the encouragement.

The building of the sanitarium here will represent an expenditure of five thousand dollars in Wichita, labor, if not even a larger amount and thousand of dollars would be spent annually in this city by people attending the sanitarium and the running expenses of the institution will amount to several thousand dollars each month. The sanitarium is an institution that will grow and that rapidly. This is the history of every sanitarium erected as a branch of the Battle Creek association.

Dr. Kellogg is a speaker of no mean ability. He speaks clearly, conclusively and brings out his points in a most convincing manner. His lecture Monday evening will be along sanitarium lines entirely and those who are interested in this but who have not had an opportunity to study them will have an exceptional opportunity to learn more about one of the greatest factors in the health of the country if they will attend this lecture at the Toler auditorium. It is free and the house should be crowded as Dr. Kellogg's talks will be found well worth listening to even by those who care little or nothing about sanitariums.

Can't Digest Minerals.

Too much emphasis cannot be laid upon the point that mineral matter in water is not only never assimilated and is therefore useless, but it is positively harmful. Hard water inflames the delicate linings of the stomach, intestine, blood vessels, heart, bladder and kidneys, stiffens the joints, incapacitates the arteries and impedes every vital function. In the effort to expel and eliminate these irritants every excretory organ of the body is over-taxed and ultimately wears out. Henry Broadhurst in "The Vital Question."

MANY DOGS TAGGED.

City Clerk Has Sold 839 Tags This Season.

Up to last night the city clerk had issued during this year 839 dog tags and had collected \$485. The dog catcher has killed something over 80 dogs this season, so that the city officials know of something over 1,200 dogs in this city, and there are two or three times that number running about the streets without tags or without the wires of the dog catcher being woven about them.

Last year the city clerk sold 82 tags and collected \$35. While there is a difference of more than a hundred in the number of tags sold between this and last year there is not such a difference in dollars. This is accounted for because the city clerk refused to issue any duplicate tags this year to people who had lost their tags and the owner of a canine had to put up for another tag or take the chance of having his dog pinched.

WAS HUSTLER GROCERY STORE

Where the Window Was Broken Friday Night.

It was one of the windows in the Hustler grocery store at the corner of St. Francis and Murdoch avenues that was broken Friday night about 11 o'clock and not one of the windows in the Hustler grocery store, as was stated yesterday morning. At the police station it was understood that the location was the Hustler grocery store, and this resulted in the error. An investigation of the affair was made yesterday and the police do not now believe that an attempt was made to break into the store, but that some colored men and white men were having a quarrel and one of the crowd was pushed through the window.

Diarrhoea

When you want a quick cure without any loss of time, and that is followed by no bad results, use Chamberlain's Colic, Cholera and Diarrhoea Remedy. It never fails and is pleasant and safe to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

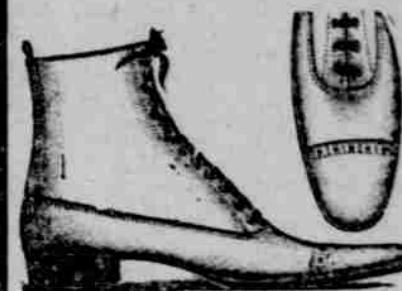

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.
